CLOVERBUDS RESULTS

While 4-H members have to be 8-18 to compete at the Morgan County Fair, there was still fun to be had for the Cloverbud Members in Morgan County 4-H, which are youth ages 5-7. The overall purpose of the 4-H Cloverbud Program is to foster the development of life skills that are essential for the cognitive, social, emotional, and physical maturation of five to eight year old children.

Cloverbud members have the opportunity to attend monthly workshops held at the Extension Office where they do activities, such as learning about STEM or completing a craft. These members also attend monthly club meetings where they also do activities. On Interview Judging day these members had the opportunity to enter in a project that they had completed during the year, and get interviewed just like the older members do.

Most of the youth chose to display the shirts that they made during the 2021 Cloverbud t-shirt workshop, which they had the opportunity to model during the Fashion Revue on Monday, July 26. Cloverbuds that displayed their t-shirts were: Evy Lozier, Brody Yoder, Gavyn Larrick, Natalie Higgins, Luke Makings, Liam Higgins, and Gabe Higgins. Luke Makings also exhibited a toy plane.

The Cloverbud projects will be displayed in the Mark Arndt Event Center at the Morgan County Fair Grounds in Brush for the duration of the 2021 Morgan County Fair which ends August 5th.

###

Colorado State University Extension is your local university community connection for research-based information about natural resource management; living well through raising kids, eating right and spending smart; gardening and commercial horticulture; the latest agricultural production technologies and community development. Extension 4-H and youth development programs reach more than 90,000 young people annually, over half in urban communities.
