## **SELLING GUIDELINES - COLORADO FRUIT**

Peaches must be paid for when ordered. Prepare to pay at that time.

If peaches are not picked up within 3 days after delivery, they will be sold to someone else.

**Do Not** under any circumstances sell half or partial boxes.

Let the customer view what he/she is buying on the premises. If there is a problem after they leave, they can return the box for an EXCHANGE as long as the supply is still available. We are dealing with a perishable product that we cannot control once it leaves the site.

Remember these peaches are still wearing their "fuzz" and sometimes in storage it may look a little weird. It is not mold or disease.

Marketing regulations allow a 10% tolerance on fresh produce so do not expect every peach in a box to be perfect.
